

Features

■ Multi-specification

There are nine specifications: tube I.D. $\phi 20 \sim 125$. Application to hold state in the stroke range.

■ Brake function

The brake function is bi-directional.

■ Non lubrication

Designs of oil-filled alloy. Special housing and bushing provide the needed self-lubrication of piston rod.

■ High quality long service life

Hard anodized aluminum cylinder tubes and stainless steel tubes resist corrosion and abrasion.

■ ISO-VDMA standard specification

Conformance to ISO-6431 & VDMA-24562 specification.

Unified design, most parts of each type are interchangeable among each other.

■ Cylinder mountings

Available with a comprehensive selection of mountings for fixed or flexible installation.
